Subject: RE: NOI submittal question for permit AK 28-8100

Hi Lana,

Shell may submit an EP that has not yet been approved. Please include a note stating that the EP has not yet been approved, along with the date of its submission to BOEM. Also, please send me an email/letter (for the file) once the EP has been approved.

As for the "biological and environmental" reports, EPA would like copies of any biological/environmental reports that have been submitted to other state and federal agencies. Any documents that Shell has produced (outside of the EMP Plan of Study and Justification Document) that provides additional information on the environment (i.e. any documents submitted to NMFS? USFWS?; impacts analysis; mitigation efforts; etc...)

I will be available Monday, December 2 if you would like to discuss this or any other remaining issues.

Thanks, and have a Happy Thanksgiving.

-Erin

Hi Erin –

There is a section in the NOI that request we submit the EP along with all biological surveys and environmental reports. The EP has several attachments of which some are still in the authorizations process. What Biological documents are you expecting we submit with the NOI? I'm concerned about the 120 day review clock starting and what all triggers the start of that clock? Will EPA work with us given the EP and other permits aren't approved at this time?

- Can we submit the EP given it has not been approved yet?

- What biological reports and environmental reports are we to submit with our NOIs?

Thanks.

Lana

Hi Lana,

I probably won't have time today – I am addressing last minute issues with the Geotech GP so that it can go to PN tomorrow. I can try and make time tomorrow, or you can send me your questions and I can respond to you tomorrow or Monday (I am traveling Monday, but will be able to access email, etc...).

Sorry I can't be more available at the moment!

Hi Erin – I think that may be too late for us. We are still on track for submitting our NOIs Dec 1st. Are you around today to talk real quick about what EPA is expecting / requiring with respect to the EP and environmental reports and related plans submittals with the NOIs?

Hi Lana,

Could you work with Erin to address your questions? While I would like to help, Erin is the lead for the NPDES permits in the Arctic.

Thanks,

Hanh

Hi Hahn,

Will you be around next week for a quick phone call? Say Wednesday Nov 27th 10am AK time? I just have a couple quick questions for you regarding some of the NOI submittal requirements.

Thanks-

Lana Davis
